SCHULZE BRAKEL
Foam for a better sound

World Leader of Customized Windscreens

Schulze-Brakel is the **leading manufacturer** of foam solutions for the sound industry. Over 500 standard shapes, a unlimited selection of colors and optimized printing processes for the perfect presentation of TV and Radio channels, events, companies or sport events.
Since 1949 we are serving customers with the **best quality product** combined with a best-in-class customer service and short delivery times.

ISO 9001 certified for consistently perfect sound quality.

Eliminates safely wind- and plop noises, protects your microphone from dust and humidity

Original SchulzeFoam for best-in-class sound transparency

Avaliable for any kind of microphone

Shape, color and surface made according to your request

Customized with your logo

Flocked surface: Brilliant appearance and long durability of colors

DeadCat

The DeadCats has been refined to be usable in a variety of different **wind and weather conditions, from mild to extreme.** The optimized combination of vegan fur and SchulzFoam filters out unwanted noise while still maintaining a natural sound.

New: FoamFlag Customized with your Logo!

SoftFlag

The SoftFlags are perfect for use in the field, studio, or stage. Our flags made from original SchulzFoam. They are virtually **indestructible, lightweight and shock resistant**.
Fits most common type and sizes and also available in a variety of colors.
Decoration with bright colors and high definition print of the latest generation.

PlasticFlag

Our PlasticFlags made out of **robust, light plastic with SchulzFoam inserts** which makes them fit for about every type of microphone.
The available models are the prism (triangle) and two sizes of cubes (square).
Standard colour of white, black, blue, red and yellow. Printed with water resistant stickers.

FLEXIBILITY   **QUALITY**   **VALUE**   **QUICK DELIVERY**   **SERVICE (24/7)**
